

ANU co-design strategy

Strategic questions

1. What are the biggest **forces** and **pressures** shaping universities like ours?
2. What must remain true about us – and what must change?
3. What is most worth our collective **investment**?
4. What will define meaningful **success** for us in 5–10 years?

Timeline for our next strategic plan

Phase 1:

Discover & connect

- Listen and learn from our community
- Analyse data, trends, and performance
- Map strengths, challenges, and opportunities
- Build shared understanding and connection

Phase 2:

Co-create & shape

- Co-design themes and priorities
- Test scenarios and trade-offs
- Align ideas across research, education, and partnerships
- Build consensus around what success looks like

Phase 3:

Deliver & commit

- Endorse strategic framework
- Translate priorities into action plans
- Mobilise leadership and teams
- Embed accountability and learning mechanisms

Launch of our next strategic plan on our 80th anniversary

A question for each of us

What would it take for our community members to see themselves in our strategy?

I know the part I play in the future of ANU.

Thank you
