Subject: Re: Dec 16 Community Meeting

Hi 47F

We aren't going to publish the 16 December community meeting. IVC will be hosting regular Q&As with local areas in addition to community meetings through the year that there are plenty of opportunities for staff to meet with Rebekah, ask questions, and provide their feedback.

Happy to discuss.

Kind regards,

47F

Subject: RE: Dec 16 Community Meeting

Hi 47F

I'm conscious that our Community Meetings webpage: [ANU community meetings | Services](#) does not contain a link to the last Community Meeting held on 16 December.

As the meeting on the 16 December contained 3 Slido activities that identify some individuals, we have prepared the recording to end at the point where Rebekah introduces the Slido activities with an end slide that reads: *The three Slido activities that followed, designed for staff to contribute ideas to the strategy co-design process, have been removed from this recording to protect the privacy of individual contributors.*

You can view the recording here to see this: [Final Community Meeting for 2025 on Vimeo](#)

I am now seeking approval from the OIVC to publish this recording.

Many thanks

Subject: Dec 16 Community Meeting

Hi 47F

Last year we created a page on the ANU website - ANU Community Meetings - and published recordings of the meetings held on 18 Sept and 4 November: [ANU community meetings | Services](#)

Since the community meeting on 16 December, we've received a small number of enquiries from staff who missed this session, asking where they can access the recording of it.

As the meeting on the 16 December contained 3 Slido activities that identify some individuals, we have prepared the recording to close at the point where Rebekah introduces the Slido activities with an end slide that reads: *The three Slido activities that followed, designed for staff to contribute ideas to the strategy co-design process, have been removed from this recording to protect the privacy of individual contributors.*

You can view the recording here to see this: [Final Community Meeting for 2025 on Vimeo](#)

I am now seeking approval from the OIVC to publish this recording.

Please advise.

Happy new year to you both!

Thanks 47F I would like to discuss this further so let's do that at our catch up next week.

Many thanks
